

STEP 2:

Attach to the application form, or send separately, by e-mail or post, to Ms. Peles:

- 1) **a resume** that summarizes your previous work and academic experience (be sure to include all colleges attended along with enrollment dates major and GPA, your scholarly accomplishments – especially science-related, prior research experience, and relevant extracurricular activities).
- 2) **an essay**, up to 500 words, describing your career interests & goals, research interests, and why/how you believe the CRESST Summer Internship will contribute to these.

STEP 3:

Request at least two professional or academic **reference letters** (e-mails sent directly from referees computers/e-mail accounts are also acceptable) and official **college transcripts** be sent on your behalf to Mrs. Peles:

Information related to all three application steps must be received by Ms. Peles on or before February 24th, 2017. The postal and e-mail addresses are listed below, along with a fax number. Application materials can be received in hard copy, by fax, or via e-mail. However, the application form, if sent by e-mail, needs to be signed, scanned, and then sent to CRESST.
