

# GSFC-MARYLAND SPACE SCIENCES INTERACTION DAY

## Program GSFC BLDG. 34 Room W 150

June 17, 2011

**1300**    *Coffee*

**1320**    *Welcome*

**1330**    *"Status of the HAWC TeV gamma-ray telescope"*  
          Jordan Goodman (Physics)

**1350**    *"Molecular clouds in high-redshift galaxies"*  
          Andrew Harris (Astronomy)

**1410**    *"Did stochastic late accretion provide highly siderophile elements,  
water and organics to Earth?"*  
          Richard Walker (Geology)

### **Break for Refreshments and Poster Session**

**1500**    *"Close-in Exoplanets: Tidal Evolution and Secular Interactions"*  
          Soko Matsumura (Astronomy)

**1520**    *"Steps toward doing astrophysics with LIGO"*  
          Peter Shawhan (Physics)

**1540**    *"How cold is cold dark matter? New constraints from the Milky Way  
satellites"*  
          Massimo Ricotti (Astronomy)

**1600**    **Adjourn for Additional Refreshments**
